May 6, 2026  
5pm \*On Site Auction\*  
Verdigre Rescue Building and the Rural Fire Board Quonset.  
The rescue building is approximately 32' x 72' with 2, 12' x 11' doors and 2 walk out doors, generator and cove heat. This building is perfect if you are looking to start, expand, or relocate a business.  
The Rural Fire Board Quonset is approx. 40' x 80' with 2, 14.5' x 13' doors and is perfect if you are looking for a ton of storage.  
Buildings in downtown Verdigre are hard to come by, and the flood guidelines make it almost impossible to build. So don't miss out on this great opportunity.  
Call Ryan Vesely for details:

# Plan. Prepare. Protect.

As extreme weather events affect more and more communities with greater frequency, preparedness can make a lifesaving difference. Turn to our upcoming Severe Weather Awareness section for valuable advice and information, and download our mobile app for severe weather forecasts, updates and alerts.

## Extreme Weather

According to the National Aeronautics and Space Administration (NASA),

**the shifting climate across the planet is impacting extreme weather throughout the globe.**

NASA notes that heat waves affecting the land and the sea, severe floods, droughts lasting years in some cases, extreme wildfires, and hurricane-related flooding are becoming more frequent and intense due to climate change. Warming air and ocean temperatures resulting from the increased burning of fossil fuels is affecting the water cycle, shifting weather patterns and melting land ice, all of which is making extreme weather even more severe. And NASA warns that severity only figures to increase even further as the planet continues to warm, meaning the storms of today, already devastating to the communities they affect, figure to be even more so as air and ocean temperatures continue to rise.
